# About Creyham Farm

Creyham Farm is a medium-sized poultry farm founded with a clear vision: to produce premium-quality poultry products through modern, hygienic, and sustainable farming methods. The farm operates with full regulatory compliance, holding a Registration Certificate (LLP No. EWFLDEDY), Business Permit, KEBS certification, PIN Certificate, and Hygiene Training accreditation, ensuring adherence to national standards of quality and food safety.

Strategically located next to Mugecha High School, near Thika Greens Golf Resort, the farm supplies high-quality poultry products to Supermarkets, distributors, and institutional clients. Creyham Farm utilizes a modern deep litter system to promote optimal bird health, welfare, and productivity — delivering a consistent supply of fresh, high quality products to the market.

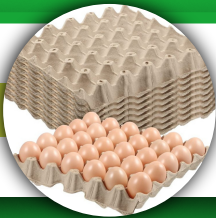

Driven by a strong commitment to sustainability and environmental responsibility, the farm is solar powered to enhance energy efficiency and reduce its carbon footprint. Looking ahead, Creyham Farm aims to scale its production capacity to meet rising demand across Kenya's urban markets — contributing to national food security, advancing sustainable agriculture, and creating meaningful employment within the community.

**-Irene Waweru**

## Purpose

To empower the community through job creation, training in modern farming methods, and contributing to food security.

## Mission

To become a leading producer of premium poultry products in Kenya through sustainable farming, operational excellence, and scalable production.

---

# Why Choose Us?

- Modern Deep Litter System that promotes optimal poultry health, welfare, and high quality products.
- Fully KEBS-certified processes with strong commitment to meeting and exceeding national quality and food safety standards.
- Comprehensive hygiene and biosafety protocols, supported by Hygiene Training accreditation, ensuring product safety and consistency from farm to market.
- A forward-looking, sustainable growth model, with active investments in solar energy integration to enhance operational efficiency and environmental responsibility.
- Strong commitment to high ethical business standards, including compliance with regulatory, statutory and hygiene requirements.

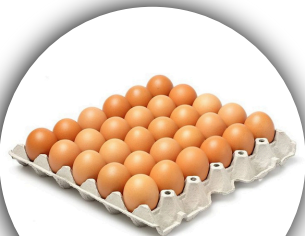

# Our Products

**Farm Fresh  
Eggs**

**Safe and hygienic  
packaging**

**KEBS-certified  
table eggs**

**Bulk packaging**

# Values & Quality Statement

## 01. Quality

---

We are committed to maintaining the highest standards in every aspect of production — from the care of our birds to the collection, handling, and packaging poultry products. We believe that consistent quality builds trust with our customers and partners.

## 03. Customer Focus

---

We listen to and value the needs of our customers, striving to exceed their expectations in product quality, service, and reliability. Our goal is to deliver value with every product that leaves our farm.

## 02. Integrity

---

Honesty, transparency, and accountability are at the heart of our business ethics. We value long-term relationships built on trust with our customers, suppliers, employees, and the broader community.

## 04. Environmental Responsibility

---

We believe that sustainable farming practices are essential for the future. To reduce our ecological footprint, we minimize waste and prioritize environmentally friendly operations.

# Hygiene Policy

**Regular  
sanitation  
and deep  
cleaning  
protocols**

**Biosafety  
measures in  
place**

**Strict  
observance of  
food safety  
and hygiene  
practices**

**Ongoing  
compliance  
with KEBS and  
public health  
standards.**

# Environmental, Social & Governance (ESG)

1

## Environmental Responsibility

Our farming practices prioritize sustainable waste management, with plans to utilize poultry litter as organic fertilizer for local agriculture, reducing chemical fertilizer dependence. It runs on solar energy and has invested in rain water harvesting.

## Social Impact

2

Creyham Farm is committed to empowering the community through creating employment opportunities and training the local community on modern farming methods.

3

## Governance & Ethical Business

The farm observes high ethical standards, and is fully compliant with the statutory, regulatory, and food safety requirements.
